

*EDI Specialists' entry into the EAI space is a natural extension of our business.*

Our consultants and permanent placement candidates have been performing B2B connectivity, communications, workflow modeling, and integration with disparate software applications for most of their career. Add to this their experience with EAI tools and software packages, and you have some of the best, well-rounded candidates in the country.

We can provide resources with a myriad of roles and titles from Architect & Designer to Developers & Integrators in any commercial software, such as:

- Webmethods
- Tibco
- Microsoft BizTalk
- Seebeyond
- And many more...

Consulting Services  
Permanent Staffing  
Contract Mapping  
Assessments  
Customized Training  
Application Integration  
Remotely Managed Services
