

BizTalk Server & EDI Practice

The foundation of any project, involving BizTalk Server 2009 and EDI, is understanding the business processes that drive EDI. Since 1994, EDI Specialists has been a leader in the EDI/B2B services industry. We have provided many diverse clients with full implementation support on all of the major, market-leading platforms. With the advancements in its EDI capabilities, Microsoft BizTalk Server 2009 is able to ensure that customers have a robust, proven B2B platform. Once again, EDI Specialists is here to help.

We have assembled a team of experts second-to-none. Our consultants and integration specialists are professionals, fully versed in all facets of BizTalk, EDI, and related Microsoft technologies. They come with years of working within various verticals, and years of complex integration experiences, which make them value-added resources right out of the gate. They possess the knowledge and credentials to ensure your BizTalk Server implementation is a success – and we guarantee the quality of their work. How many other firms make this claim?

We provide the full range of services related to the implementation of EDI using BizTalk Server 2009 in the business environment, including Requirements Analysis, Solution Design, Implementation, and Mapping. We take pride in our ability to mentor, transfer knowledge and bring your own internal resources to a level enabling them to further develop and support your environment.

If your company is planning to purchase BizTalk Server 2009, migrate an existing environment to this newer platform, replace a legacy EDI Translator, or would like an assessment of how well your BizTalk Server platform has been implemented, call EDI Specialists. We will set the integration path to enable you to be successful and take your company's EAI to the next level.

Free BizTalk Analysis

We can offer you a free, one hour meeting with our Senior Director of Microsoft Technologies. Even if you're just wondering about the capabilities of Microsoft BizTalk Server 2009, you will find a call worthwhile.
